[www.petermeyerblinds.com.au](http://www.petermeyerblinds.com.au)

I started manufacturing blinds in 1987 after 15 years of experience that my wife Helen and I gained as both retailers and interior decorators. Our knowledge & experience was applied in setting up to manufacture high quality custom made blinds for the trade. Today Blinds by Peter Meyer is highly regarded as one the finest manufacturers of quality blinds and awnings in Australia.

The business is now run by our sons, Simon and Damien and I've taken the role of Chairman of the Board. This generational change has proven extremely successful with the company now strengthened with additional energy, innovation and ideas. Simon and Damien bring extensive industry experience to our business with their 45 years combined experience adding considerably to our expertise and customer service. With our industry background, management experience and strong team of in house specialists, we're able to understand the industry, indoor and outdoor, from both retail and manufacturing perspectives.

Our blinds and awnings are available in most states and larger cities through our network of Australian retailers, designers and decorators as well as New Zealand and Singapore.

Our driving passion is to achieve quality in every product we make and in everything we do as a company.

# Simply Somfy

# Simply Roller

## SHADE & PRIVACY WITH CLASSIC STYLE

Simply Rollers from Blinds by Peter Meyer are designed to suit contemporary or classic decor with style and elegance. Stainless steel chains are standard together with ultrasonically sealed edges and a choice of base bar colours and shapes. These Rollers can be easily motorised, linked and spring assisted and with our latest roller blind system and we can achieve the smallest fabric gaps in the market. Highly functional – they easily control the privacy and light entering your room. Simply Rollers are both fashionable and highly versatile. Our Simply Pelmet range also allows you to design a unique pelmet treatment to complement the installation.

# Simply Roman

TIMELESS, ELEGANT AND CLASSIC STYLE.

Simply Romans are custom made to the highest quality and will add classic style and presence to any décor. They offer excellent insulation and small side gaps. When raised, they form their own elegant pelmet and can be supplied with or without timber battens. Available in screen, translucent or blockout, allowing for heat, light, and privacy control with a blockout or light filtering effect. They can be used alone or with curtains, or fitted inside or outside the window recess. Simply Romans can be motorised to provide fingertip control and convenience.

We offer an extensive selection of fabric and weave colours & textures, to provide designers, architects and decorators the opportunity to create truly unique window treatments that will enhance any commercial or residential building style. Our quality & attention to detail truly sets our Simply Roman Blinds apart.

# Simply Cell

SLIM & MINIMAL DESIGNER LOOK | ENERGY SAVING WITH STYLE

Saving energy costs is an increasingly important subject these days. Interior window blinds which are intelligently installed can assist. Simply Cell honeycomb shades have an insulating function so regardless of season and outside temperature they have a positive effect on the room climate. It's cellular construction or air pockets function superbly to keep the room cool in the summer and reduce heat loss in the winter. This maintains ultimate light control with no visible light coming through the fabric. Simply Cell is one of the most energy efficient internal window coverings on the market.

Our high quality 25mm Simply Cell shades feature internally punched holes allowing the cords to run through the blind invisibly. This maintains ultimate light control with no visible light coming through the fabric. Simply Cell honeycomb shades also have the additional benefit of an asymmetrical shape which prevents pleat loss on the front side helping to maintain its perfect pleat look.

## RUSTIC ORIENTAL WEAVES | UNSTRUCTURED NATURAL BEAUTY

Rustic weaves, traditionally woven, combining natural harvests from oriental grasslands, woodlands and riverbanks. Silk Road fabrics are totally unique. They add an unmatched stylish natural beauty to many decorating styles. Completely naturally harvested, they combine a wide range of fabrics, grasses & botanicals – each fabric a totally unique work of nature's art. All Silk Road blinds are carefully hand loomed, taking up to 3 days to weave one unique 15m fabric roll. Naturally, all blinds are totally individual and carefully planned so that the pattern is repeated to work in multiple blinds, whilst ensuring the natural uniqueness inherent in each of the individual blinds. Silk Road is a very special collection of exotic fabrics and is totally exclusive to Blinds by Peter Meyer.

## Specifications

### Styles:

Roman Blinds, manual + Motorised options

### Fabrics:

16 exotic weaves selected for their individual charm and qualities

Privacy: Varies with the fabric chosen.

The beauty of this range is that you can choose to leave it beautifully sheer or simply line it with a translucent lining for privacy. If you want the blinds to darken the room, simply line them with a blackout lining. This makes the range so versatile it can be used throughout the whole house including bedrooms!

### Motorisation:

# Chinois Eclectic

BAMBOO WEAVES | EXOTIC ORIENTAL

These twelve exotic oriental weaves were developed & created especially for us. They can create a outstanding feature or add that finishing touch to any environment. The Chinois Eclectics collection will provide mystique and elegance, but with a difference. Suitable for domestic and commercial applications Chinois is hand crafted using bamboo, seagrasses, jutes and other reeds and woven together using a polyester yarn to ensure durability and longevity. This product has the most stunning window definition.

*"I always wanted to give the best designers a challenging weave that just said 'use me'... I've found it with this Chinois Eclectics collection"..... Peter*

Naturally Chinois Eclectic can be motorised.

## Specifications

### Maximum Size:

Most weaves are 2500mm wide.

Note: some larger weaves may be heavy.

### Styles:

Romans, rollups, curtains, and moving panels.

### Weaves + Privacy:

12 exotic weaves selected for their individual charm.

None of the Chinois range will give sufficient privacy for a bedroom at night although they do provide daytime privacy.

### Finishes:

# Le Blinde

## FRENCH TIMBER WEAVES | HANDCRAFTED AND TIMELESS

Our Le Blinde French woven timber fabrics will add a timeless element to any decor. Handcrafted for over a century by France's finest woven timber craftsmen exclusively for Blinds by Peter Meyer.

These woven timbers can be made into Roman Blinds, Roll-up Blinds or Moving Panel Blinds. They can be used in their beautiful natural state or stained to your requirements or even custom painted to colour match your design palette. We also bias bind the edges of our Woven Timber Blinds to give them a finish that will last the test of time. Naturally our woven timber can be made in manual cord operated, chain operated or motorised. Enhance your residential or commercial space with our selection of Le Blinde woven timber blinds.

Le Blinde, is actually the first range that Blinds by Peter Meyer started producing. Peter wanted to offer the finest timber weave ranges in the world, so he selected premium hand woven timber weaves from France from a company who had been making them since 1872. To this day, Le Blinde is installed in some of the finest homes in Australia and New Zealand.

## Specifications

### Maximum Size:

2500mm wide x 3000mm drop. Prefinished fabrics max: 2400mm width.

### Styles:

Romans, rollups, curtains and moving panels.

### Weaves + Privacy:

11 Weaves in total. 8 Natural, 3 Le Finishes [ 2 Le Washe + 1 Stain]  
Four weaves are designed to give privacy. All others give daytime privacy while allowing you to see out. This reverses at night.

### Thermal Properties:

Timber is one of nature's best insulators. UV protection will vary according to openness of weave as will insulation and light transmission.

# Timber Venetians

## PREMIUM QUALITY NATURAL TIMBER VENETIANS

Blinds by Peter Meyer manufacture Australia's finest custom made natural timber venetian blinds. We use on the highest quality timbers throughout our range. Our specially selected 4.2mm thick blades can be custom painted, stained or lacquered. We do this in our own paint booths where we are able to control every stage of production guaranteeing quality. Assembly is by hand with every slat being meticulously checked at every stage of the process.

Fingertip control, convenience and functionality is easily added to the enjoyment of timber venetians by incorporating Somfy's cutting edge innovation and whisper quiet motorisation technology.

### Custom Paint

Over 30 years experience with custom paint, stains and finishes. Specialist colour matching.

# Venetian

# Habitus® Premium Wood Look

VERY LIGHT, VERY TOUGH & VERY AFFORDABLE VENETIANS.

Blinds by Peter Meyer has developed their Habitus Venetians range using the latest cutting edge co-extrusion technology. Also known as Faux Wood, Habitus blinds are a popular choice where the look, style and functionality of timber venetians is required, but where durability, greater stability and budget constraints are also an important consideration. Habitus blinds are available in either 50mm or 63mm slat width and with an 85mm flat Valance.

Importantly, Habitus blinds are up to 15% lighter than PVC alternatives, offering larger sizing opportunities. Polystyrene based slat products have amongst the best performance in Australian conditions, including thermal stability & are very suitable for all areas of the home or office, including wet areas. The very unique grain effect is created through photographic imaging of real veneer creating very realistic grain structures providing the luxury look and feel of real wood, but with low maintenance and at a very affordable price. Our colour palette has been prepared by a colour consultant engaged to select seven new matching, co-ordinated on trend designer colours.

## Specifications

### Habitus® Venetians:

#### Slats:

# Aluminium Venetians

25MM + 50MM ALUMINIUM + UNIQUE 50MM ALLOY & CEDAR COMBINATION

**Aluminium Venetians:** Combining elegant simplicity with practical versatility and function. They bring a high level of minimalist and on trend style to most architectural directions. The wide range of metallics and designer colours together with a choice of a slim 25mm wide or Classic 50mm wide slat provides designers, architects and decorators with a wide range of unique design solutions.

**Manhattan Venetians:** Our custom made Manhattan Venetians combine rich Canadian Western Red Cedar fascias and baserails with a stylish combination of premium 50mm crowned aluminium slats, in a range of designer colours with colour co-ordinated string tapes. The Cedar is offered in finishes including clear lacquer, custom stains and paints together with a standard range of classic complimentary colours. Manhattans are unique to Blinds by Peter Meyer.

The look and feel of Manhattan Blinds ranges from extremely modern & urban slick to classic 'retro', depending on the installed environment.

# Shutters

## NATURAL TIMBER SHUTTERS + SMARTER TIMBER SHUTTERS

**Natural Timber Shutters:** We offer an extensive range of Australian made Shutters to suit both domestic and commercial applications. We utilise only the highest quality materials and focus on quality in every aspect of our shutters. Our Ultimate Shutters are constructed from plantation grown, sustainable western red cedar. Cedar offers excellent insulation properties which will assist with keeping the heat out during the summer months and retaining warmth during winter months.

**Smarter Timber Shutters:** Our Smarter Plantation Shutters feature a timber frame with impact resistant blades offering the benefits of Cedar's design and installation flexibility. Designed to keep looking good through the knocks and bumps of everyday life they are a smart choice for high traffic areas, hallways and children's spaces.

# Skylight Blinds

## TOTAL SUN CONTROL

We custom make high quality skylight blind systems for both domestic and commercial applications.

Our systems are designed to provide total sun control as well as assisting building insulation. These systems, options and blinds can provide sun and light filtering through to complete blockout. Available in interior and exterior options with either manual or motorised operation. Our skylight specific fabrics are designed for specialist application.

Our Skylight blinds are essential in the hotter months in Australia as they can effectively cut out excess glare, light and heat from the sun. In winter, skylight blinds also help keep warmth in. Our expert staff can advise you on the most appropriate system for your needs.

# Sottezza II

## UNDERMOUNTED SKYLIGHT SYSTEM

This under mount roof system is designed to mount flush under a sloping roof and can also be used in large scale skylight windows providing the ultimate in interior heat protection. Sizes up to 6m width and 5m projection are possible. Truly an amazing solution for the most beautifully designed architectural skylights and glass roofs. Running on a minimum of 3 degree pitch allows for the Sottezza II to cover large projections.

The new Optistretch technology makes for taut fabric without the traditional light gaps of other solutions. By far one of the most advanced under mount roof systems on the market, German design and quality with integrated LED lights, the Sottezza II is living proof that Weinor German technology is world leading.

EXTERIOR ROLLER BLINDS. THE ONLY 75MM CASSETTE. SMALL & DISCREET.

Stylish new Vertical Roller blind range features tiny 75mm and 92mm cassettes in Cable & Channel versions that can span a massive 6m width with up to a 4m drop. The 92mm and 112mm Zip version enables blinds to span up to 6m width with drops up to 3m.

Available in 2 sleek architectural profiles, square + round, adapting unobtrusively to all building facades. The patented Weinor Opti-Flow System® ensures the fabric position is always perfect. VertiTex II avoids bulky cassette housings on patios, windows and balconies. Unique cantilever guide rail mounts allow blind installation up to 2.5m wide without cassette brackets.

For windows, VertiTex II is a suitable alternative to external shading systems or roller shutters and can be used inside and outside. A wide range of fabric types will allow you to filter light and privacy to suit your needs. For every application and facade, VertiTex II can provide the solution. VertiTex II throughout its wide range of closures & profiles is small, discreet and so versatile.

# Kubata + Kubata LED

FOLDING ARM AWNING | FULL CASSETTE | MINIMAL CUBIC DESIGNER STYLE.

Kubata's crisp, minimal cubic cassette shape provides an exceptional style element for the most contemporary of facades. The restrained simplicity of Kubata also ensures that it complements most architectural styles. The award winning designed Kubata incorporates cutting edge technology with premium German componentry and build quality excellence. Kubata perfectly showcases and exemplifies Weinor's newest generation of design oriented awnings. Clean, stunningly simple, with no visible fixings.

Optional LED spotlights integrated into the cassette add a special quality to evening outdoor living areas. Weinor's durable & whisper quiet LongLife arm can be conveniently controlled by remote, whilst the wind lock safety device will ensure stability in high wind situations. Available in 56 modern frame colours, or up to 200 with our RAL range. Pair with Weinor's exclusive range of fabrics in three colour ways and with 143 patterns and colours – leaving nothing to be desired. The new generation of awnings from Weinor are exceptionally design oriented.

FOLDING ARM AWNING | FULL CASSETTE | DESIGN EXCELLENCE

Semina Life is a very versatile full cassette awning combining a crisp stainless steel aesthetic with Weinoor's cutting edge technology and German precision built quality. With an exceptional price-performance ratio, the Semina Life is a serious alternative to a semi-cassette. The elegant design will enhance residential or commercial architectural styles from modern to traditional. Awarded Europe's 2016 Red Dot for design, innovation excellence and build quality, the styling includes fresh, modern cassette aluminium rings that create a visual highlight to enhance the combination of frame color and fabric design.

Features include Weinoor's renowned Longlife Arm, highly functional cassette with muffled feed rollers that ensure maximum protection from the elements with almost no awning wear. Options include intergrated LED lighting, Valance Plus and intergrated Tempura Quadra Heaters to extend outdoor living hours. Semina Life is Weinoor's most stylish, cost effective and feature rich awning.

# Sottezza II

CONSERVATORY AWNINGS | UNDER-MOUNTED

Enjoy relaxing times under your patio roof – this is the promise that is kept by your Sottezza II. The decorative inside shadowing is elegant, sleek and understated – and suitable for almost every patio roof. This awning reduces the development of heat under the glass and provides for feel-good temperatures in the summer. In the cooler seasons, the warming solar rays are used to heat up your patio area. At the same time, the Sottezza II provides effective glare protection.

## Clever Sottezza II versions – Stretch and OptiStretch options:

With Sottezza II OptiStretch, the fabric is positioned securely in the side channel – like a zip, ensuring the fabric remains taut. The basic Sottezza II Stretch clamps the fabric firmly on two sides and minimises fabric sag.

**LED RGB Strip:** The new RGB LED light strip from Weinor creates an atmosphere like no other. It provides unique cosy al fresco lighting. The weatherproof LED RGB Strip can be fitted almost anywhere on the patio. even retro fitted. Coloured lighting, great light effects – a unique, cosy mood with the LED RGB Strip there is a choice of up to 48 colours and 3 whites that produce a pleasant even light with the help of a diffuser, resulting in an incomparable, cosy al fresco atmosphere.

## Tempura + Tempura Quadra

Our high tech infrared heaters will allow you to enjoy your outdoor deck or patio more evening hours & more months of the year. Amazingly efficient energy saving technology's exceptional benefit of going from cold start to it's full radiant temperature within 2 seconds. No more waiting for warmth. Our new award winning design Tempura Quadra is equipped with modern radiation technology resulting in up to 99% of the visible light being filtered and that glare is also significantly reduced.

# Weinor Exclusive Fabric Ranges

THE WORLD'S FINEST SELECTION OF QUALITY EXTERIOR FABRICS. 143 STUNNING NEW COLOURS & PATTERNS.

## Weinor Fabric Qualities

### Our colour brilliance from Solution Dyeing

The manufacturing process determines whether a fabric keeps its brilliant colour for many years to come. Weinor's fabrics are solution dyed. This means that the colour pigment is stored in the fibres during the spinning process. They are then spun into a yarn. The finished yarn is therefore fully saturated with dye (carrot). Weinor's acrylic fabrics have been on the market for decades and are the best possible proof that colours can remain brilliant for a very long time.

The traditional method is to spin the yarn first and then dye it. We call this yarn/piece dyeing (radishes). With this process, bleaching of the colour cannot be ruled out. Weinor fabrics stand out from products made by other manufacturers where only the finished yarn is dyed. Weinor fabrics ensure superior colour fastness.

The woven fabrics that we engineer meet stringent quality requirements and undergo extensive laboratory testing during the production process. Using recognised measurement methods, the grammage, maximum tensile strength, maximum tension force, tear propagation force, water pressure resistance, hydrophobicity, light fastness, weathering fastness, solar energy performance and other properties are subjected to rigid testing.

## Fabric Certifications

### Tried & tested certified quality

### OEKO-TEX

Certified in accordance with OEKO-TEX standard 100 and comply with REACH, the European chemicals directive.

### UPF 50+

Weinor fabric's maximum value of UPF 50+ offer the best possible UV radiation protection.

### Teflon Extreme

Dirt-repellance impregnation of fabric with Teflon woven tissue protection and nano technology.

## Weinor Awning Fabrics

### My Collections

My Collections, is Weinor's new fabric range consisting of 3 different colour collections and ways. It's a huge range of 143 new release colours patterns to select from.

Weinor fabric quality and the manufacturing process is exceptional. Weinor fabrics are made from polyester or acrylic. High-quality pigments are stored in each individual fibre. The result: especially good colour fastness and high UV resistance. Colours remain lastingly brilliant. Teflon fabric coating and state-of-the-art nano technology, ensures the surface is resistant to oil, water, dirt and prevents rot.

### Suitability

Folding Arm Awnings | Open | Semi | Full Cassette

WGM Top | Over Roof | Conservatory Awnings

Sottezza II | Under Roof Mount

Plaza Viva | Retractable Roof

Vertitex Exterior Rollers | Cable | Channel | Zip

Paravento | Side Panel Blinds

## Weinor Vertical Sun Fabrics Screens by Weinor

4 perfect privacy and sun protections for windows, patios and balconies. Four high quality fabrics.

### StarScreen

#### Textile woven fabric for a homely atmosphere

This spinneret dyed polyester fabric has a very natural textile look and feel. Its open weave increases the light transmission. This ensures an extremely homely character. A superb woven fabric.

#### Suitability

Vertitex Exterior Rollers | Cable | Channel | Zip  
Valance Plus

### Fiberglass Screen

#### Robust fabric for vertical sun protection

The fabric is made of coated fibreglass yarns and is therefore extremely durable and easy to keep clean

#### Suitability

Vertitex Exterior Rollers | Cable | Channel | Zip  
Valance Plus

### Soltis 86 + Soltis 92

#### Ventilated sun protection

The Soltis® high-tech fabric is extremely air-permeable thanks to its many micro-pores. When used on vertical awnings, it therefore provides for a healthy climate. Soltis® reflects up to 97 percent of all solar rays and therefore provides perfect sun protection. The Soltis® qualities differ from each other in terms of their structure and size as well as their pore configuration – thus allowing for a higher or lower amount of UV, light and air permeability.

#### Suitability

Vertitex Exterior Rollers | Cable | Channel  
Folding Arm Awnings | To 2400mm Projection  
Valance Plus  
WGM Top | Over Roof | Conservatory Awnings  
Sottezza II | Under Roof Mount  
Paravento | Side Panel Blinds

### Perluca

#### For airy sun protection and privacy

Attractive spinneret dyed acrylic fabric with perforations arranged at regular intervals. They ensure a constant exchange of air so that rooms do not overheat and maintain a pleasant climate.

#### Suitability

Vertitex Exterior Rollers | Cable | Channel  
Valance Plus  
Paravento | Side Panel Blinds

### Pergona

#### Pergona Classic

The Weinor Pergona classic PVC-coated fabric guides rainwater away reliably. These fabrics give a blackout effect and are therefore suitable for effective shading. Dirty marks cannot be seen from underneath either.

#### Pergona Translucent

The special feature of Pergona translucent is its high light transmission of up to 21 %. The support fabric allows natural light through and provides optimal protection against rain and UV rays. The fabric is extremely hard-wearing, waterproof and light transmitting at the same time.

#### Suitability

Pergotex II | Only

# Weinor Innovation Excellence

AWARD WINNING DESIGN, INNOVATION & TECHNOLOGIES. CRAFTED WITH GERMAN PRECISION.

### Long Life Arm Quiet Operation

Unique Long Life arms with a 10 year guarantee. High quality construction and tested to 100,000 cycles.

### Wind Lock Safety Device

Unique Wind Lock technology is designed to stop awnings lifting up in high wind gusts to eliminate any possible damage above.

### LED Lighting 30,000 hours

Weinor LED's are highly energy efficient, providing 30,000 hours of warm lighting with minimal energy consumption.

### Weinor Opti-Flow System Smallest Cassettes

Opti-Flow patented technology enables Weinor to offer very wide blinds in the smallest size cassettes on the market.

### Intergrated Drainage Water Management

Every Weinor awning comes with a rain management solution incorporated to channel rain water off to the sides.

### Zip Technology Tight side capture

Zip technology holds the fabric secure on the side for superior wind resistance & ensures no light gaps.

### Indent Cable Guide Unique Weinor Solution

Perfectly suited when end fitting a cable guide is not possible for certain installations.

### Large Commercial Solutions Side by Side Systems

Our side by side systems enable you to cover larger areas, both residential and commercial.

### Multi Section Units Large Area Awnings

Opal Multisection units allow for easier install of larger awnings and widths up to 12m wide.

### Valance Plus Vertical Screen Intergration

Motorised or manual solutions for vertical screens intergrated into the awning's front profile.

A FEW OF THE MANY INNOVATIONS THAT SET WEINOR APART IN THE EXTERIOR RANGE MARKET.

**Opti-Stretch**  
**Superior Wind Resistance**

Clamps the fabric on all 4 sides for superior wind stability and to ensure that there are no light or gaps.

**Stretch**  
**Cost Effective**

Clamps the fabric on 2 sides and offers more economical solutions for conservatory awnings.

**Bracket Options**  
**Multiple Bracket Solutions**

Weinor and PMB can custom design and fabricate bracket solutions for tricky installs including rafter fits or stand-off brackets .

**Custom Brackets**  
**All Fixings Covered**

Weinor have all bracket options covered from standard wall fix to top fix as well as rafter fit options available.

**Spreader Plates**  
**Colour Matched**

Weinor offer a standard range of spreader plates for all their awnings. Customer powder coated to match their standard 56 colours.

**Telescopic Post**  
**Rapid Water Removal**

Unique telescopic post allows for large volumes of water to be easily and quickly drained off to one side. Exclusive to Plaza Viva.

**Design Awards**  
**Innovation & Design**

Weinor the company and their products are multi-award winners for excellence in Design, Innovation and Technology.

**My Collections**  
**Colours Retain Brilliance**

Over 143 Solution Dyed Acrylics and Polyester fabrics to suit any need. Superior colour fastness. High UV resistance.

**Screens by Weinor**  
**Perfect For Privacy & Sun**

Suitable for Vertitex 2, Folding Arm Awnings, WGM Top or Valance Plus options

**56 Powdercoat Colours**  
**Exceptional Colour Range**

Weinor offer the largest standard powdercoat range available on the market with access to over 210 colours.

# Solare Teknica

AWNING + HEADBOX OPTIONS | VERSATILITY. FOUR PRODUCTS IN ONE

Solare Teknica Series has been designed by Australians, specifically for our lifestyle, ensuring design; styling and quality were top of mind. The modern and contemporary Solare Teknica Series is suited to all exterior facades. 4 matching awning styles allow you to personalise the perfect awning to suit your external shading requirements. Mix and match the awning styles whilst still maintaining a common appearance and design on your home.

## Awning Options

**Solare Teknica**  
**T1000**  
**Straight Drop Awning**  
**Hold Down Straps**

Sleek and simple with a modern aesthetic suitable for balconies or strapping to the floor.

**Solare Teknica**  
**T2000**  
**Straight Drop Awning**  
**Cable Guide**

The ultimate industrial look which gives you privacy and allows ventilation.

**Solare Teknica**  
**T5000 [ Zip ]**  
**Straight Drop Awning**  
**SRS | Side Retention System**

Ideal for high wind areas. Completely enclosing an outside area, with no gaps for dust, dirt & insects to enter.

**Solare Teknica**  
**T5500**  
**Pivot Arm Awning**  
**Heavy Duty**

Projected off the window allowing air to flow behind. Windows can be open while awning is projected.

## Headbox Options

**Solare Teknica**  
**Open Roller**

A modern industrial look is offered by exposing the componentry. By eliminating the aluminium headbox profiles, the price is significantly reduced.

### **Solare Teknica** **Open Headbox**

Increase air circulation around the roller minimising heat build up for PVC skins.

(Ideal for Pivot Arm Awning also for Cable Guide & Straight Drop)

### **Solare Teknica** **Closed Headbox**

Encapsulates the fabric from external elements such as rain, UV and fragments keeping the fabric clean and enhances longevity.

# Solare Teknica | T1000

## EXTERIOR ROLLER | STRAIGHT DROP

Solare Teknica Series has been designed by Australians, specifically for our lifestyles, ensuring design: styling and quality were top of mind. The modern and contemporary Solare Teknica Series is suited to all exterior buildings both residential and commercial.

The Solare Teknica 1000 Straight Drop provides your home with entry level UV protection and is very simple to use. Sleek and simple with a modern aesthetic, suitable for balconies where you are able to strap the blind to the railings or simply strap it down to the ground. This blind is designed to be either fully up or strapped in the down position.

## Specifications

---

- Cutting edge award winning design
- Strong simple industrial look
- Very affordable entry level system

Solare Teknica T1000 + Somfy motorisation

# Solare Teknica | T2000

## EXTERIOR ROLLER | CABLE GUIDE

Sleek and simple with a modern aesthetic, suitable for most applications, this is our most popular exterior screen blind. Use with or without a head box, the superior quality stainless steel cable guides allow the blind to be raised and lowered without the blind blowing in the breeze. Designed to be either up or down, the optional locking bolts hold the fabric taut and minimises bottom rail movement. Free moving cable guide end caps allow floating in and out of the bottom rail and the awning operates smoothly without putting pressure on the cable. The T2000 a very versatile exterior roller, that enhances any architectural style.

## Specifications

- Easily controlled in strong breeze
- Windows, balconies + al fresco dining

Solare Teknica T2000 + Somfy motorisation

# Solare Teknica | T5000

EXTERIOR ROLLER | SIDE RETENTION ZIP

With head box and side channel as standard, the fabric is tensioned by utilising a floating channel, located within the special two piece side channel, eliminating the possibility of fabric “blow outs” or light gaps. As the fabric is held taught between the left and right channels, this system is ideal for enclosing courtyards, patios or balconies, essentially adding an extra room to the home. The Solare Teknica 5000 is a great way to shelter courtyards and other outdoor spaces from wind, insects and UV rays.

## Specifications

### Size:

Maximum Width: 5m or, Maximum Drop: 4m – up to max. 16 sq.m

### Style:

# Exterior Shutters

## PREMIUM POWDER COATED ALUMINIUM SHUTTERS

Our premium exterior shutter range combines cutting edge engineering with beautiful design. This powder coated aluminium shutter is like no other, providing unprecedented durability, flexibility and strength. They will weather the harshest elements. Elegant and minimalist, this is the most streamlined shutter in the market. It's two part frame hides all screws so there are no visible fixings & the internal blade rotation provide the ultimate clean look.

We also offer a cost effective range of aluminium shutters that combine beauty, durability and versatility. These shutters can be ordered to suit most window sizes and will enable you to maximise and utilise your indoor and outdoor spaces.

# Shutters

Elegant sun + privacy control.

Superbly streamlined blades.

Uber minimal look. No visible fixings.

Enhances most architectural styles.

# Exterior Venetians

## EXTERIOR METAL VENETIANS | CRISP ARCHITECTURAL LOOK

The most effective form of external shading is achieved through operable and retractable blades. The most commonly used 80mm blade is fully variable, providing exterior views and natural light whilst blocking all direct sunlight. With up to 85% of solar gain eliminated, cooling costs are greatly reduced (internal temperatures can fall up to 10°C), clear glass can be used in place of expensive tinted glass and there is less need for artificial lighting. The result is a healthier work or living environment.

Blinds by Peter Meyer use only the highest quality European and Australian manufactured systems to cover every External Venetian blind situation. We specialise in both domestic and commercial applications and can assist you with advice on all of your External Venetians requirements.

# Venetians

Total control over sun and privacy

Significant energy savings

Up to 85% solar gain reduction

Stunning crisp street presence

# Somfy Quality

WORLD LEADER IN CUTTING EDGE MOTORISATION TECHNOLOGY

## Motorisation. We only use the best.

Blinds by Peter Meyer, have been at the forefront of motorisation in Australia for over 30 years.

With our interior and exterior blind & awning ranges – we only manufacture custom made products of the highest quality using the finest components. So, with quality as our primary benchmark, we've always only had one choice for our motorisation. From day one, we've worked with the best in the world. Somfy.

We've always worked very closely with Somfy to bring our clients the most innovative motorised solutions and to complement the quality of our ranges. They are always at the cutting edge and leading the world in motorisation technology and we're proud to be with them every step of the way to provide our clients with state of the art motorisation solutions for all our interior and exterior ranges.

New Somfy ranges include superb Situo remotes, ultra quiet WireFree, rechargeable battery operated Sonesse 30 motor range, as well as the new RTS Connexoon smartphone control system that's removed the complexity of individually controlling a wide range of interior and exterior shading and protection products and allowed simple control of everything from your smartphone – home or away.

somfy®

# Home Automation

TOTAL CONTROL WITH YOUR SMARTPHONE AT HOME OR AWAY

## Controlling all your blinds & awnings. Never been simpler.

The Connexoon RTS app is a new and very easy way to control all of your motorised window coverings either from home or away.

Experience the pleasure & simplicity of controlling your Somfy-powered motorised solutions from your smartphone. Control of all your RTS motorised products including: interior blinds and curtains, exterior awnings, retractable roofs, exterior rollers and screening, LED lights and infrared heaters with simple fingertip control.

Maximise the enjoyment, ease of use and all the benefits your motorised products provide, including: shade, natural or filtered light, privacy, protection and extended outdoor living hours. Let Connexoon automatically activate everything to your schedule. Connexoon will provide a new level of comfort and peace of mind and make home life far more enjoyable.

Connexoon Window. Home automation couldn't be simpler!

**somfy**

## Individual control

Connect up to four smartphone devices, each with individual personalised control

## Centralisation

All of your RTS motorised products in one place, allowing you to open or close with just a single touch

## Timer

Schedule opening and closing of every product at the time & date of your choice.

## Remote Access

Maximise the many benefits such as energy saving and privacy, even when your not at home

# Control Inside & Out

REMOTE CONTROLLERS + SENSORS FOR EVERY REQUIREMENT

## Controllers + Sensors

Somfy offer a range of control solutions to meet every automation requirement for interior & exterior window shading, protection, and privacy applications for both residential and commercial applications. Somfy's unique range of remote controls offer the combination of cutting edge technology with sleek minimal style – providing the ultimate in convenience and control at the touch of a button.

From our broad range of Somfy sensors and automation controllers, you're able to create energy efficient & convenient environments in all of your indoor and outdoor living spaces.

As Somfy automation specialists, we can advise you on the most suitable control solution, from a single channel remote, to a 6 channel with timer function, through to a 16 channel with personalised scenarios.

# Motor Innovation

CUTTING EDGE MOTOR TECHNOLOGY. WIDE RANGE. ULTRA QUIET & WIRELESS

## Constant Innovation

Somfy offer a wide range of motors, suitable for every application. Innovation is constant and new motors are constantly being released that embrace the latest technologies with their benefits. Somfy motors and controllers undergo rigorous factory testing. Your Somfy motor will give you years of trouble free service. New motor releases include:

### Sonesse 30 WireFree Li-ion RTS motor

The motor provides you with a quiet and simple battery solution for residential medium to large blinds, powered by a built-in rechargeable battery.

### Sonesse 40. Ultra Quiet

When operating at normal conditions, the Sonesse® 40 is nearly silent. It can be used with roller blinds, venetian blinds, roman blinds, cellular/pleated shades and projection screens,

### Versatile + Flexible

All Somfy motors from Blinds by Peter Meyer are supplied with inline connectors for easy installation and wiring and will easily combine with your home automation system or dedicated Somfy remote controllers from 1 to 16 channels.
